SUMMARY

Passionate **Flutter Developer** with experience building secure and user-friendly cross platform mobile applications. Skilled in State management, Local Storage, Firebase, and REST API integration, with a strong focus on application security and performance. Eager to contribute technical expertise and grow within a collaborative and innovative team.

TECHNICAL SKILLS

- **Programming Languages:** Dart, Kotlin, Java
- **Frameworks:** Flutter, Qt/QML
- **Mobile Technologies:** Riverpod, REST APIs, Firebase
- **Databases & Storage:** SQLite, Secure Storage, SharedPreferences
- **Tools:** Git, GitHub

WORK EXPERIENCE

ARECA Embedded Systems Pvt Ltd, Bangalore

Apr 2023 - Dec 2023

Application Developer Intern

- Developed and maintained applications using Qt/QML and C++ with database integration.
- Implemented responsive user interfaces and contributed to debugging, testing, and performance optimization.
- Gained experience in software development best practices, including version control, documentation, and collaborative development.

EDUCATION

Bachelors of Computer Applications (BCA)

CGPA: 8 | (2023 - 2026)

PROJECTS

Krypton Pass - [[PlayStore](#) | [Website](#)]

Technologies: Flutter, Riverpod, Firebase, Secure Storage

- Built a secure Android multi-vault password manager app with an integrated 2FA authenticator using Flutter.
- Implemented AES-256-GCM encryption with Argon2id key derivation for secure local data protection.
- Developed offline authentication workflows, encrypted backups, and secure credential management.

AlphaFix - [[Github](#)]

- Developed a Flutter-based utility that restores video metadata lost during re-encoding.
- Recovers timestamps, GPS coordinates, camera information, and other metadata within seconds.
- Supports videos from Sony and other camera manufacturers.
